

TSI Response Procedures (TSI-3) Explosive Device Discovery

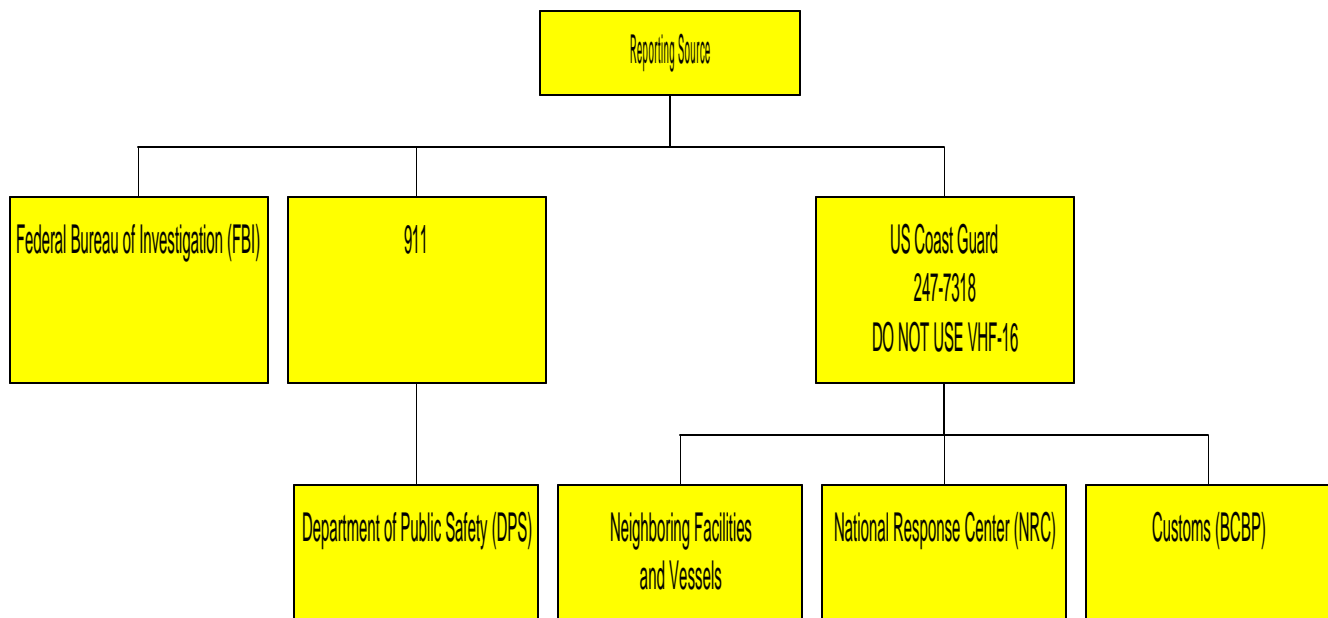

Reporting Source Actions

- ☐ Using Bomb *threat Checklist* (from SA-1 Bomb Threat), obtain as much information as possible.
- ☐ Secure the scene. Do not allow anyone near scene until authorities arrive.
- ☐ Do not operate equipment, electronics, or radios within 2000 feet of bomb.
- ☐ Consider stopping transfers and transits.
- ☐ Consider evacuating personnel to a designated muster location.
- ☐ Prevent unauthorized personnel or vehicles access to the scene.
- ☐ Consider emergency departure of vessels moored at facility.
- ☐ Activate vessel or facility Bomb Plan, and follow standard operating procedures.
- ☐ Designate command post for responding agencies to set up incident command.

Identifying suspicious packages:
